Affected products

Part No.	Description	New Part no.
9685.010403A	Trackunit Raw, CAN, BT, 1.7 m. cable (5.6 ft.)/M8	9685.010403B
9685.010409A	Trackunit Raw, CAN, BT, Deutsch/M8, 1.7 m. (5.6 ft.)	9685.010409B
9685.010410A	Trackunit Raw, CAN, BT, Deutsch/M8, 0,5 m. (1.6 ft.)	9685.010410B
9685.010405A	Trackunit Raw, BT, Cigarette plug, 1.7 m.	9685.010405B
9685.010406A	Trackunit Raw, BT, 2.7 m. cable (8.8 ft.)	9685.010406B
9685.010411A	Trackunit Raw, CAN, BT, M8, Deutsch, Power Cable	9685.010411B
9685.010416A	Trackunit Raw, CAN, BT, M8, 0.5 m cable (1.6 ft.)	9685.010416B
9685.010441A	Trackunit Raw, BT, OBD-II connector	9685.010441B
9685.010452A	Trackunit Raw, CAN, BT, M8, DT8	9685.010452B
9685.010461A	Trackunit Raw, CAN, BT, M8, Genie, DT12	9685.010461B
9685.010494A	Trackunit Raw, CAN, BT, M8, DTM12, 401-4 compliant	9685.010494B

Trackunit ApS

Product Identification

Products will be easily identifiable by the product ID Label. The label has the European CE marking and is approved for the European and North American market.

Description and extent of change

The global semiconductor industry is impacted by material supply shortages, critical allocations and very long lead times and lack of availability on a range of semiconductor components. Trackunit is on top of the situation and have made multiple mitigations in our supply chain and to our TU600 product, to keep our commitments and deliveries towards our customers.

On the TU600 product, we have included integration and approval of 2nd source / alternative components, to allow availability of second source components improving our supply chain flexibility and to mitigate risks for future material shortages, while keeping the existing specifications and functionalities of the TU600 product range.

Certifications & Declaration of Conformity

All regulatory certifications, type and country approvals are applied to the new variants, with a complete match to the existing version of the TU600.

Customer Impact of Change and recommended Action

Trackunit has taken utmost care to ensure full compatibility to the existing versions of the TU600, while ensuring that all product functionality, performance, and durability remains a complete match.

There is no customer impact since there is no change in form, fit, function, reliability, quality and safety of the new TU600 product variants.

Schedule of change

Change is effective immediately and will be implemented in our production by February 1st, 2022.

If you have any questions about the hardware change or other, please do not hesitate to contact our support. You'll find our contact information on www.trackunit.com
