# End of Sale Notice: TU600 Raw telematics device and DualID II keypad

Trackunit has announced End of Sale (EOS) for the following TU600 Raw and compatible Dual ID II product part numbers, effective July 31, 2025. This transition is part of Trackunit's commitment to continuously improving and delivering the most advanced, reliable IoT telematics devices to customers to eliminate downtime in construction. With this, your Trackunit representative can support you with a seamless transition to the next-gen TU700 and K300 IoT devices.

Impacts and Recommended Actions

TU600 Raw telematics device	DualID II keypad
Effective July 31, 2025, Trackunit will transition from the TU600 Raw to the TU700 Raw. **Important** • **Compatibility:** TU600 is only compatible with the DualID II keypad which has also been announced for EOS. Therefore, when transitioning from TU600 to the TU700, you will need to switch to the K300 Pass keypad, which is exclusively compatible with the TU700 • **Services:** All services for existing deployed TU600 Raw devices will continue and are not impacted by this announcement	Effective July 31, 2025, Trackunit will transition from the DualID II keypad to the K300 Pass keypad. **Important** • **Compatibility:** DualID II is only compatible with the TU600 telematics device which has also been announced as EOS. Therefore, when transitioning from the TU600 to the TU700, you will need to switch to the K300 Pass keypad, which is exclusively compatible with the TU700 • **Services:** All services for existing deployed TU600 Raw and DualID II devices will continue and are not impacted by this announcement
While orders for TU600 and DualID II will be accepted until July 31, 2025, Trackunit anticipates increased demand as this date approaches. To avoid disruptions, Trackunit recommends customers immediately switch to the TU700 telematics device and the K300 Pass keypad and will support you with your transition efforts to minimize disruptions.
